Lazy Kate™
An advanced Kate for
every type of yarn

Nancy's Knit Knacks LLC

Anything but Lazy Kate™
Added Mounting Holes for "Lay Flat"
Operation

We have recently added a new capability to our ABLK. We have added 3 additional holes for inserting the yarn guide posts. These allow you to lay the lid flat when you need to do so.

Just insert your posts into the 3 holes that are located toward the center of the lid as opposed to ones that run along the front edge. You can then lay the lid flat which will not add any tension to the yarn based on the effects of gravity.
