Innovative Tools for the Fiber Arts Industry

Jumbo Lazy Kate ("Katie a-Go Go")

Our Lazy Kate is a fully tensioned, 3 bobbin Kate. It has many features that make it special. It measures 7" x 7" and has 8" tall bobbin rods (3/16" dia.) which can accommodate every bobbin in the industry. Hardwood construction and it comes packed in a custom denim bag. Fully assembles/disassembles in a few seconds. The user can transfer yarn from a spindle using our drinking straw transfer and storage system.

Anything but Lazy Kate (New)

Our newest spinning tool is a Lazy Kate that is designed to handle all yarns including the new art yarn. Unit is designed with a tilt-lid gravity tensioning system. The unit also has adjustable tension guides and a conventional tensioning cord system. Plus, our lid can be adjusted to any angle between 0 and 45 degrees. Bobbins are spaced out 6" from center to center which means the Kate can hold overloaded 5" diameter bobbins. Everything can be packed inside the unit and the lid can be locked in a closed position. Measures 13-1/2" x 6-1/2" x 2-3/4" thick. It is the most advanced Lazy Kate on the market. (Prototype pictured)

Nancy's Niddy Noddy

Sturdiest Niddy Noddy on the market. It will not break or fall apart. Can measure 1, 1.5, and 2.0 yards plus a 27" sampler. Optional 34" arm is available which makes a 4 yard skein. Innovative connection system uses custom connection bolts to secure the parts together. Comes packed in a denim carry case. All hardwood construction.

Nancy's Niddy Noddy is preferred by spinners who demand the best performance and quality.

Handy Andy Andean Plyer

The Handy Andy Andean Plyer is a unique tool that allows the spinner to ply yarn the same way that the shepherds did in the Andes Mountains with their hands many years ago. Except our tool replaces your human hand with a wooden hand. The Handy Andy then mounts onto its base where you can ply the yarn back onto your spinning wheel or drop spindle. It's a one-of-a-kind tool that spinners really appreciate. It ends the problem of "blue finger."

Spinner's Lap Cloth

The Spinner's Lap Cloth is a high contrast model and features black fabric on one side and a white fabric on the other. This allows the spinner to see their fiber in the "drafting zone" while they spin. Simply use the dark side for light colored fibers and the light side for dark colored fibers. The cloth is made of 2 layers of sturdy 6-7 oz. Twill fabric (cotton/poly blend) which is washable. Includes an innovative pocket. The main section measures 13" deep by 22" wide. The pocket section measures 13" deep by 7".

Learn to Spin Kit and Spindles (LTS)

Our LTS Kit includes our own spindle which is ideal for new spinners. It weighs only 45 grams plus it has a notch on each side of the disc for the fiber to rest in. We include an ounce of quality fiber and a 30 minute DVD which shows the beginner how to use a spindle. Nancy Shroyer is the instructor in the video and she guides the beginner on all of the aspects of spinning that they will need to know. Our spindle is also available by itself.

Wraps Per Inch Tool Kit

Best selling Wraps Per Inch (WPI) tool on the market. Wooden tool has a laser etched ruler on it which is used to measure WPI of a yarn. Comes with its own Knit-Kard that provide s info about WPI and a useful WPI chart.

Spinning Project Kards

Each set includes 10 kards. They are made from rigid cardstock and are very durable. Kards are designed to be written on. The spinner records important information about their spinning projects on the kards. 4" x 6"
